The H-Type is a professional information and display system for a wide range of applications.

The model 49-PW / LW (display board in portrait or landscape format for wall mounting) is a device which has a metal housing in RAL color and a 49" display board for 24/7 operation.

The system is fitted directly onto the wall. To protect the display, it is covered with tempered 8mm glass.

The cable routing is in the device and not visible from the outside. The cable entry is either in the back or on the top of the housing.

The device can be equipped with a digital signage player. Various models in different designs are available.
