

I-Type

Model 23

Free-standing

multitech
digital signage solutions

The I-Type is a professional information and display system for a wide range of applications.

The model I-23 has an integrated display board in portrait format, a front panel in tempered 5mm glass and a brushed chromium supporter and foot.

It's a freestanding device for 24/7 operation.

The cable routing is in the device and not visible from the outside. The cable entry is from the bottom or from the back of the unit.

The device can be equipped with a digital signage player. Various models in different designs are available.
